Experience

Oct 2021 - Present

UX Designer | Konstrukt

Working with UX, UI, Product Design & Strategy for this product based on Qlik, aimed at corporations with implemented Business Intelligence. Target users are Business Controllers and other managerial financial roles. Certain effort is being spent to ensure expert-type users a more seamless experience, while allowing novices to learn and handle the basics.

Jun 2019 - Aug 2019

Intern | Toyota Material Handling LS

Joined a team of summer intern to research and propose solutions for their autonomous trucks installation process. I also helped the ordinary UX team conduct small tasks such as pilot researching and conducting a thorough design review of one of the company's platform planned for revamp.

Mar 2019 - Jun 2019

Teaching Assistant | University of Gothenburg

Acted as a supervisor for bachelor level students taking an introductory course in interaction design.

Jun 2018 - Jul 2018

Summer UX Designer | Kansei Sentira & LiU Innovation

Helped Prof. Simon Schütte at Linköping University to design a research-based data collection tool for his Kansei Engineering method.

Jun 2018 - Jul 2018

Software tester | SKF via EVRY

5 week job at SKF's IT-department for Machine Health. My responsibilities were mainly to manually test, verify and document various functionalities under development.
